About The Children's Emergency Medical Fund of New Jersey

Did you know that we are a *no frills* organization made up of volunteer medical practitioners and allied health care professionals throughout the region? There are no salaried employees and many of our expenses are out of pocket. Unfortunately, this is fast becoming cost prohibitive. We apologize for our lack of formality. We have decided not to spend money on fancy stationery and brochures. We feel that every nickel must go to our children.

Did you know that as a rule, only pediatricians and pediatric allied health care professionals may access CEMF? Exceptions are made on a case by case basis. Because the fund goes into action on a moment's notice, we need very explicit information quickly. Pediatric practitioners can present us with their patient files allowing us to make an immediate decision based on the merits of the case. If we cannot handle the case directly, we access our database and move the case to the appropriate agency or facility.

Did you know that we were the first in the state to build custom state of the art computers equipped with video conferencing? We are now able to monitor many of our seriously ill children from remote locations. The system we have constructed can be found in many of the finest medical centers. The children and their parents know that we are always accessible. These systems are donated at no cost to the families.

Did you know that *WWOR TV Channel 9 News, News 12 New Jersey, The Star Ledger, The Montclair Times, the Bergen Record,*, Matters Magazine and the national magazine *Exceptional Parent* have all featured The Children's Emergency Medical Fund

Did you know we have never turned a child away?

We Provide
